Governor Snyder Signs CPL Legislation

Governor Rick Snyder signed Senate Bills 789 and 790 into law. These important pro-gun bills create a more efficient, consistent and expedient concealed pistol licensing process through the creation of a true "shall issue" licensing system for all statutorily eligible Michiganders.

This legislation eliminates county concealed weapon licensing boards as well as the discretionary licensing authority currently held by those boards. With the elimination of the county licensing boards, county clerks will administer the concealed weapon licensing process. Background checks that are statutorily required to obtain a Concealed Pistol License (CPL) will be conducted by the Michigan State Police (MSP). However, the MSP would not retain the discretionary authority currently held by the county licensing boards because SB 789 mandates that all persons who statutorily qualify for a CPL (i.e. not prohibited under 28.425b and satisfy all financial and submission obligations) would receive a license. Send your NRA thanks to Governor Snyder and the state legislators who voted for this critical concealed pistol licensing reform.

Please stay tuned to your email inbox and www.nraia.org for a more detailed description regarding how this reform will be implemented in the coming days.
